Subject: Resource allocation

Could you please insert the current (month of May 2003) allocation of your time in percent to the projects and activities you are working on ? I need this information to address resources with Rick and Urs by next week. Please return your entries to Carolyn for her to combine to one table for SAC.

Please let me know if you have questions/comments.

Regards and thanks,

2003-04-25
Resourse allocation..

Roger
